Education

Full stack Web Development
Masai, Bengaluru
July 2024-present

Anshik Suhane,

Full Stack Web Developer

Professional Summary

Dynamic Full-Stack Web Developer with expertise in the MERN stack, adept at creating and integrating scalable APIs. Excels in using Generative AI and rapidly learning new technologies. Strong communicator and collaborator focused on code quality and innovative, high-quality user experiences.

Projects

EatLog   Live Demo Link   Github Repo Link

JavaScript   React   Git   Node.js   Express.js

MongoDB   RESTful APIs

Responsive Web Design   Tailwind CSS

- Developed React components for QR code scanning, enabling instant access to nutritional information.
- Ensured optimal performance across devices through responsive design implementations.
- Integrated frontend with RESTful APIs for real-time calorie updates and dish customizations.
- Utilized Node.js and Express.js for server-side development, along with MongoDB for database management.

Fruit Store   Live Demo Link   Github Repo Link

JavaScript   React   RESTful APIs

Responsive Web Design   Tailwind CSS

- Created a visually appealing and user-friendly fruit store application using React for seamless navigation.
- Implemented Firebase for secure user authentication and real-time product updates.
- Designed responsive web pages using HTML5 and CSS3 for consistent experiences across devices.
- Conducted comprehensive testing and debugging to ensure the app's reliability and performance.
